YBI BELKNIT 20A

Needle Inbricant specialist fo Knitting machines

Description:

A product formulated with very light coloured highly refined minaral cil fortified with carefully selected additives such as anti-wear, anti oxident, anti-foam, anti-rust and anti-static agents for high level performance.

Technical Specification:

Appearance (Diluted)	Milkyemulsion
pH(10%)	7 ± 1
Ionic nature	Nonionic
Viscosity (40° C, mm ² /s)	22 ± 2
FlashPoint (°C)	150 ↑
PourPoint (°C)	0
Cucorrosion test (100°C, 3 Hrs)	Max.1
Wahsability & scourability test	Pass
Ash content (wt%)	Nill

Application:

Applied for needle lubrication in textile industries for high speed knitting machines.

Benefit:

It reduce friction which provide long life for needle. Its auick emulsification property in water exhibits a high level of scourability from knitted fabrics.

Packing:

210Ltrs. MS/HDPE Barrel.
10/20 Ltrs. HDPE Pail.

Also Available:

Neele cleaning Oil,
Gear(Bed)Oil,
Compressor Oil & Grease.
